Mathias Brizuela

FULL STACK DEVELOPER

San Juan, Argentina
mathias.brizuela@gmail.com
gh/dakren1

Full Stack Developer experienced in building scalable architectures and contributing to complex projects. I pick up patterns quickly, which lets me learn new technologies without friction, delivering high-quality solutions aligned with business goals.

01 EXPERIENCE

Apr 2022 — Oct 2025

Prisma Medios de Pago

Developer III

- Built a homepage configuration service with Java Spring + PostgreSQL to update content without technical intervention.
- REST microservices on JBoss, migrating from SOAP to improve maintainability and reduce errors in payments and queries.
- Production incident management: log analysis, reproduction and resolution of failures.
- Nest.js work: version migrations and a BFF to centralize and filter requests to internal APIs.
- Designed and built a top-up system in Java Spring.

Feb 2020 — Mar 2022

Folcode

Full Stack Developer · Tech Lead

- Travel-packages platform in Java Spring; logging and Elastic Search integration for traceability and monitoring.
- Led a courses platform and a coupon system with Laravel and Angular, ensuring efficient continuous delivery.
- Political-management project with Next.js and Express.js: a content platform.
- Tech Lead of a social-network MVP with React.js and React-Native + Redux; Java Spring backend with microservices (DDD) and messaging architecture.
